Help and Feedback

If you would like to learn more about the new BrightAuthor features described below, please download the [User Guide](#). If you are new to BrightAuthor, you can also visit the [Tutorial Videos](#) page. If you have any questions, please contact us at support@brightsign.biz.

Changes Since 3.8.0.40

New Features

- Support for native portrait-mode HD video (1080x1920)

Bug Fixes

- Creating a Media RSS Feed state using a Dynamic Playlist no longer breaks Live Text states that are using Live Data Feeds. Note that this bug only occurred when the Media RSS Feed and Live Text states were placed in different zones.
- If a media state is deleted, any Interactive Menu items that point to that state are now also deleted.
